## Michigan Business Tax (MBT) Film Credit Assignment

---

### Purpose

To allow MBT filers to assign the Film Production and Film Infrastructure Credits. These credits provide tax incentives to encourage the production of motion pictures, television programs, music videos, and similar productions in Michigan.

---

### Assignment of the credits

A taxpayer eligible to claim a Film Production or Film Infrastructure Credit may assign all or a portion of its credit to any assignee. The credit assignment cannot be revoked, but an assignee may subsequently reassign a credit, or any portion of an assigned credit, to one or more assignees.

The MBT assignor must complete Form 4589 after the date the Michigan Film Office issues the *Post-Production Certificate of Completion* or *Investment Expenditure Certificate*. The deadline to assign the credit is the return filing deadline of the assignor's tax year in which the certificate is issued. The deadline to reassign the credit is the return filing date for the tax year in which the assignee received the credit.

An assigned credit amount must be claimed against the assignee's MBT liability or withholding tax liability (Film Production Credit only) during the assignee's tax year in which the credit was assigned.

Once the assignment is approved, Form 4589 will be returned to the assignor with an authorized Michigan Department of Treasury (Department) signature. The assignor must furnish each assignee with a copy of the approved form to attach to the assignee's tax return. A separate Form 4589 must be completed for each project and each assignee.

---

### Film Production Credit

The Michigan Film Office, with the concurrence of the State Treasurer, may enter into an agreement with an eligible production company providing the company with a refundable credit against MBT or against taxes withheld under Chapter 7 of the Michigan Individual Income Tax Act of 1967.

To qualify for the credit, an eligible production company must spend at least \$50,000 in Michigan for the development, preproduction, production, or postproduction costs of a State-certified qualified production and must not be delinquent in a tax or other obligation owed to this State nor be owned or under common control of an entity that is delinquent.

Once the Film Office is satisfied that company expenditures and eligibility requirements are adequately met, a *Post-Production Certificate of Completion* will be issued verifying the amount of the credit to be claimed. The certificate received must be submitted by the eligible production company with a completed Form 4589 for the original assignment.

---

### Film Infrastructure Credit

An eligible taxpayer may claim a credit for investment in a qualified film and digital media infrastructure project equal to 25 percent of the base investment expenditures for the project,

provided the taxpayer enters into an agreement with the Michigan Film Office by September 30, 2015. This agreement requires the concurrence of the State Treasurer.

If the credit exceeds the taxpayer's tax liability for the tax year, the excess may be carried forward to offset tax liability in subsequent years for a maximum of ten years. The Film Office may not authorize total credits greater than \$20,000,000 in any tax year.

To qualify, a taxpayer must invest and expend at least \$100,000 for a qualified film and digital media infrastructure project in Michigan before January 1, 2009, or at least \$250,000 after December 31, 2008.

No claim for a credit may be filed until at least 25 percent of the base investment in the project has been expended. Once the Film Office finds the taxpayer has complied with the agreement terms and is satisfied that investment expenditures and eligibility requirements are adequately met, the Film Office will issue an *Investment Expenditure Certificate* stating the amount of the credit. The certificate received must be attached to a completed Form 4589 for the original assignment.

**NOTE:** To qualify for the credit, a taxpayer must not be delinquent in a tax or other obligation owed to this State nor be owned or controlled by an entity that is delinquent. A credit cannot be claimed for any direct production or qualified personnel expenditures for which a Film Production Credit was claimed against either an MBT or withholding tax liability. The credit shall be reduced by any credit claimed under section 437 (Brownfield) for the same base investment.

The agreement requires a recapture of 25 percent of the gross proceeds or benefit from a sale or disposition of tangible assets paid for or accrued after December 31, 2007, adjusted by the amount of the apportioned gain or loss, if assets whose cost is included in the base investment are sold or disposed of. This recapture is the responsibility of the taxpayer who was originally awarded the credit even if the credit was assigned to someone else.
